SUMMARY

A software developer with a background in retail and a genuine passion for tech. Eagerly seeking opportunities to contribute to impactful projects, I am committed to a perpetual journey of learning and skill enhancement.

My goal is to actively engage with projects that make a difference while consistently pushing the boundaries of my knowledge and abilities.

SKILLS

TECH STACK

- HTML
 - CSS
 - Git
 - GitHub
- Ruby
 - React
 - JavaScript
 - Ruby on Rails

SOFT SKILLS

- Teamwork
 - Leadership
 - Adaptability
- Active Learning
 - Problem Solving
 - Communication

EDUCATION

SOFTWARE ENGINEERING IMMERSIVE
General Assembly Australia
March 2023 - June 2023

Available upon request

PROJECTS

Skateboard Part Picker | Solo Project

Developed a dynamic web application using Ruby on Rails that allows users to create and customize their skateboards by selecting various skateboard parts.

Technologies: Ruby on Rails, CSS, PostgreSQL, Git

Key Features:

- **User Model:** Implemented a user authentication system, enabling users to sign up, log in, and manage their accounts.
- **Skateboard Model:** Designed a model to represent skateboards, allowing users to own multiple skateboards and save their configurations.
- **Skateboard Part Models:** Developed four models to represent different skateboard parts with their respective attributes and prices.
- **Price Calculation:** Implemented a feature to calculate the total price based on the selected skateboard parts.

Beatbox Music Player | Group Project

A web application that mimics the functionality of Spotify using Spotify's OAuth system. Users can authenticate with their Spotify accounts and access features such as browsing playlists, searching for songs, and playing music.

Technologies: React, React Router, Vite, OAuth, CSS, Git

Key Features:

- **Open Authorization:** Led Spotify's OAuth API integration for secure login, safeguarding user data and enabling full app access.
- **React Spotify Web Playback:** Integrated React Spotify Web Playback SDK, allowing users to search and play music.
- **Playlist Browsing:** Designed a simple, user-friendly feature for browsing saved playlists and discovering new playlists.
- **Music Search:** Implemented an music search bar, enabling users to find tracks and interact with the app's music catalog.

EMPLOYMENT HISTORY

Nike Sydney City
HEAD OF LOGISTICS | 3IC

2022 - 2023

- Collaborated with logistics and supply chain for timely, cost-effective deliveries
- Monitored and maintained records of stock levels, sales, and inventory movements
